Brewster Ambulance Service Awarded 911 Ambulance Contract for the Town of Middleborough, Massachusetts

Boston, MA--(April 12, 2011) –Brewster Ambulance Service announced today that it has been awarded the contract to provide 911 ambulance services to the Town of Middleborough, Massachusetts. The contract was awarded to Brewster Ambulance on a unanimous vote from the Middleborough Town Council Monday evening, following a competitive bidding process. Service is scheduled to begin July 1, 2011 with an initial three-year contract term.

Mark Brewster, President and Chief Executive Officer, said, "Being awarded this contract demonstrates the continuing success of our company, and shows our desire to enter markets through the competitive bid process. We are very pleased to have Middleborough as our expanded base of operations in Massachusetts and look forward to providing superior medical transportation services to the region."

George Brewster, Jr., Vice President and Chief Operating Officer, said, "the Town of Middleborough will average more than 1,500 new transports a year and enable us to further expand our operating efficiencies as we continue to expand our market area." We pride ourselves on having the most highly trained team members, compassionate care, and state of the art equipment. We look forward to working with the Town of Middleborough, Massachusetts to deliver superior emergency medical services."

Brewster Ambulance Service is a family owned and operated medical transportation industry leader and continues to provide exceptional, patient focused, superior medical care that communities rely on and trust.
